All Work Product shall be deemed "work-for-hire" as defined under United States copyright law and shall be the exclusive property of TI from the date of inception. If the Work Product does not qualify as a "work-for-hire", then in any event all Intellectual Property rights in and to the Work Product, including the copyright, will be deemed automatically transferred to TI from its inception. Seller shall not be obligated to defend or be liable for costs and losses to the extent the claim of infringement or alleged infringement is solely due to and would not have occurred but for (a) Seller's compliance with designs for such goods originally furnished by TI to Seller or (b) a modification by TI of Seller's goods that was not authorized by Seller.
- (b) Without prejudice to the immediately preceding section, if any goods or Work Product to be provided by Seller to TI under this Purchase Order is, or in TI's opinion is likely to become, the subject of a claim of infringement and/or misappropriation of any Intellectual Property, trademark or service mark right of a third party, Seller shall, at its sole expense, procure the right for TI to continue using the goods or Work Product. In the event Seller cannot procure such rights, Seller shall, at its option, either modify the goods or Work Product to make it non-infringing and/or to avoid a claim of misappropriation, but still be functionally equivalent, or replace the goods or Work Product with functionally equivalent goods or Work Product that is non-infringing and/or avoids a claim of misappropriation.

15. Anti-counterfeit Assurance

Seller agrees that if the transaction contemplated by this Purchase Order requires Seller to procure one or more components or materials, including but not limited to semiconductors, integrated or discrete circuits, or any chemical or metal (whether pure, compounded or alloyed) Seller shall procure such components or materials solely from either the original manufacturer of the component or material, or that manufacturer's authorized distributors. Seller must review and maintain all documents necessary to show chain of custody of a component or material to its original manufacturer. Furthermore, if Seller utilizes a third-party to provide a component or material for Seller's use in completing the work contemplated in this Purchase Order, Seller must require that third party to comply with the requirements of this paragraph. Failure to comply with the terms of this paragraph is a material breach of this Purchase Order.

16. Changes

- (a) Periodically, TI may change any of the drawings, specifications or instructions for work covered by this Purchase Order. In such event, Seller shall make every attempt to comply with such reasonable change notices. If such changes result in a decrease or increase in Seller's cost or in the time for performance, Seller will notify TI in writing of its request for an adjustment in the price or time of delivery within five (5) business days after its receipt of the change notice. The parties will negotiate in good faith regarding any adjustments in the price and time for performance to be made. Any such adjustments must be agreed by authorized representatives of the parties in writing.

- (b) Seller shall not make any changes in manufacturing, materials, testing, configuration or otherwise that alter the form, fit or function of the goods sold to TI, nor shall it make any changes to any specifications or requirements, unless it has first obtained TI's prior, written consent.

- (a) TI may terminate this Purchase Order at any time upon written notice due to Seller's failure to comply with the terms of this Purchase Order, including failure to comply with the ethical conduct standards described in Section 4.
- (b) TI may terminate the work to be performed hereunder in whole or in part at any time without cause by written notice to Seller. Such notice shall state the extent and effective date of such termination and, upon the receipt of such notice, Seller will comply with the directions pertaining to work stoppage hereunder and the placement of further orders or subcontracts hereunder. Within three (3) months after TI's termination notice, the parties shall negotiate in good faith with regard to the amount of reimbursement, if any, to be paid to Seller for work performed prior to TI's notice of termination and/or the amount of prepayments to be refunded by Seller to TI for work not performed. Seller shall mitigate its claim to the maximum extent possible, and in no event shall Seller's claim exceed the lesser of the fair market value or actual costs of the raw material and "work-in-progress" material that Seller cannot divert to other uses or the authorized work performed prior to TI's notice of termination. No claim shall be asserted against TI nor shall TI have any liability for loss of expected profits, or for any consequential or incidental damages, due to termination. Termination under this provision shall not be deemed a breach of contract. The provisions of this paragraph shall not limit or affect TI's right to terminate this Purchase Order for cause and shall not apply to a termination for cause.

18. Liability Limitations

IN NO EVENT SHALL TI BE LIABLE TO SELLER FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF OR IN CONNECTION WITH THIS PURCHASE ORDER, EVEN IF TI HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. In no event shall TI's liability to Seller for any breach of any provision of this Purchase Order exceed the purchase price for goods or services delivered and accepted hereunder.

19. Prices

- (a) Except as provided by Section 16 above (Changes), TI may delay payment for any shipment at any increase in price above that indicated on this Purchase Order until the pricing discrepancy is resolved, at which time the payment terms set forth below shall apply. If Seller issues a general price decrease for any equipment and/or materials similar to the items described on this Purchase Order, a comparable price reduction shall automatically apply to the items described in this Purchase Order.
- (b) No extra charges of any kind, including charges for boxing or cartage, will be allowed unless specifically agreed to by a duly authorized TI representative in writing. Pricing by weight, where applicable, covers net weight of material, unless otherwise agreed.

Notwithstanding anything contrary stated therein, TI shall not be under any obligation to make any payment until the receipt of the tax invoice.
- (c) Except for purchases of capital equipment or unless otherwise noted, it is hereby certified that the goods described in this Purchase Order are exempt from sales and use tax, for the reason that such goods are purchased for resale or will become an ingredient or component part of, or be incorporated into, or used or consumed in, a manufactured product produced for ultimate resale. If the goods described in this Purchase Order are purchased tax exempt and subsequent use makes the goods taxable, TI will assess and pay tax to the appropriate state.
- (d) Seller is responsible for all income taxes imposed by any taxing authority or government entity resulting from the provisions under this Purchase Order. Each payment to be made by TI under this Purchase Order shall be subject to any deduction, withholding or set-off of tax as may be required under applicable laws.

22. Time of Delivery

- (a) Seller acknowledges that time is of the essence of this contract. Seller will provide prompt notice to TI of any delays in delivery. Failure to meet agreed upon delivery dates shall be considered a breach of contract and, in addition to any other rights available to it under this Purchase Order or at law or in equity, TI may cancel this Purchase Order without penalty if TI specified delivery dates will not be met. Seller agrees to reimburse to TI any penalty and damages imposed upon or incurred by TI to its customers or others by virtue of delays caused by Seller's failure to deliver goods or work on such delivery dates. Late shipments may be rejected by TI and returned to Seller.
- (b) Unless otherwise agreed in writing, Seller shall not make commitments for material or production in excess of the amount or in advance of the time necessary to meet TI's delivery schedule. It is Seller's responsibility to comply with this schedule, but not to anticipate TI's requirements. Goods shipped to TI in advance of schedule may be returned to Seller at Seller's expense. TI may reschedule the delivery of any unshipped product for later delivery within ninety (90) days of the originally scheduled delivery date.

23. Contingencies

- (a) Force Majeure. If, despite Seller's best efforts, Seller is prevented from delivering, or if TI is prevented from receiving the goods referred to in this Purchase Order as a result of governmental actions or regulations, except as hereinafter provided, or of fires, strikes, accidents, and other unforeseeable causes beyond the control of the party affected by the contingency, the obligation to receive or deliver shall be suspended for no longer than a reasonable time during which such causes continue to exist. Seller must (a) give TI immediate, detailed notice of the initial situation as soon as possible, (b) deliver ongoing detailed status reports to TI regarding its efforts to fully remedy the situation and (c) deploy all available reasonable resources to mitigate adverse impacts of the delay. Should the condition persist for more than forty-five (45) days, TI may, at its option, cancel this Purchase Order without liability or have Seller resume delivery upon removal of the intervening condition.
- (b) Seller is not excused by this Section from any of its obligations due to any reasonably foreseeable or preventable situation (including, but not limited to, late or insufficient deliveries by other suppliers, personnel turnover, labor disputes or strikes involving Seller's own personnel, third party equipment or software changes).
- (c) Seller must maintain an appropriate plan to ensure business continuity in the event of a business interruption event (e.g., an ISO 22301-compliant continuity plan), and Seller must make a detailed outline of the contents of that plan available to TI for review upon request. Additionally, within 24 hours after an incident that triggers Seller's continuity plan, and also within 24 hours of TI's request thereafter, Seller must communicate to TI the impact of the event on Seller's products and operations and what steps Seller is taking (and plans to take) to remediate that impact. In the event of any event that triggers that continuity plan, Seller must exercise the relevant actions in the plan in order to maintain continuity of supply to TI.

24. Over-Shipments

Seller is instructed to ship only the quantity(ies) specified in this Purchase Order. Any deviation caused by conditions of loading, shipping, packing, or allowances in manufacturing processes, however, may be accepted by TI according to the over-shipment allowance indicated on the face of this Purchase Order. If no allowance is shown, it shall be 0% (zero percent). TI reserves the right to return any over-shipment in excess of the allowance at Seller's expense.

Shipments will be made in accordance with TI's Supplier Packing and Labeling Manual, Shipping instructions and Global Routing Guide which is updated periodically and is located at <http://wpl.ext.ti.com>. TI may assist Seller by providing freight classifications or classifying material. Seller will not insure or declare value on shipments, unless TI specifies otherwise. When shipping via small parcel, Seller will ship freight collect. Seller shall consolidate shipments daily on one bill of lading per mode to avoid premium freight costs, unless instructed otherwise by TI. In case of any shipment that does not correspond to normal past practice between TI and Seller, or to standard practice in the industry, (e.g., requires special handling equipment or air ride suspension, or air shipment over weight break threshold, over 120 inches long or wide or over 56 cubic feet, etc.) Seller agrees to notify TI's appropriate transportation department and Global Routing Center as listed on this Purchase Order, 72 hours prior to shipment for special shipping instructions. All truck shipments must be classified by Seller using the current "National Motor Freight Classification Tariff". Each box, crate or carton will show TI's full street address (not just post office box numbers) and Purchase Order and item numbers regardless of how shipped. On small parcel shipments, a packing list shall accompany each container and shall describe the contents of that container. On other shipments, Seller will provide a packing list to accompany each shipment, referencing the appropriate Purchase Order and item number. The bill of lading also will reference the Purchase Order and item number in the appropriate Customer Reference field whether transmitted on paper or electronically. Seller is responsible for packing any shipment correctly based on the carrier/mode utilized. Charges for packing and crating shall be deemed part of the purchase price, and no additional charges will be made therefor unless specifically requested by TI on the Purchase Order. Seller agrees to ship via the carrier specified by TI and TI's Global Routing Center. Failure to ship via TI specified carrier will subject Seller to misroute debit and charge back of freight cost.

- (b) All premium freight cost incurred by TI or Seller beyond that specified by TI shall be borne by Seller. Seller is responsible for all shipments that are damaged in transit due to improper packaging, improper judgment or any other act or omission of Seller, shipper or carrier. On all FCA origin shipments Seller will ship freight collect.

26. Export Compliance

- (a) Seller acknowledges that all products, services, proprietary technical data and information, or any other items provided to Seller by TI or otherwise obtained by Seller from TI pursuant to this Purchase Order may be subject to U.S. Government export control laws and regulations and the export and import regulations of other countries. Seller agrees that, unless prior authorization is obtained from the U.S. Department of Commerce, Bureau of Industry and Security, the Treasury Department's Office of Foreign Assets Controls ("OFAC") under any of its applicable regulations, or any other U.S. Government agency, neither Seller nor its subsidiaries shall export, re-export, transfer, or release, directly or indirectly, any items, including any products, equipment, software, technology, technical data or technical information (written or otherwise), provided to Seller by TI, any direct product of the technology or software provided to Seller by TI, or the TI deliverable, to any destination or country to which the export, re-export transfer or release of any such items provided to Seller by TI, the direct product of TI technology or software, or the TI deliverable would be prohibited by the U.S. Department of Commerce, Bureau of Industry and Security, Export Administration Regulations (EAR) or any other applicable export control laws or regulations. Without limiting the generality of the foregoing, Seller shall control the disclosure of and access to technical data, technical information and any other items provided to Seller by TI in accordance with applicable U.S. export controls laws and regulations, including but not limited to the EAR.
- (b) If, pursuant to this Purchase Order, Seller provides any item provided to Seller by TI or the direct product of any technology or software provided to Seller by TI or any TI deliverable to any third party who is permitted by TI to receive such TI items, the direct products of TI technology or software or the TI deliverables, such as Seller's permitted subcontractors, Seller shall give notice of the need to comply with such laws and regulations to any person, firm, or entity that it has reason to believe is obtaining any item, including any item provided to Seller by TI, the direct product of any technology or software provided to Seller by TI or any TI deliverable, from Seller with the intention of exportation or re-exportation of such item. Seller will be responsible for obtaining any export, re-export licenses or any other government authorizations required for the export or re-export of any item provided to Seller by TI, the direct product of any technology or software provided to Seller by TI or any TI deliverable made by Seller. Seller further agrees that it will not export, re-export, or transfer to the United States on TI's behalf any goods, services or technology from any embargoed/sanctioned country or from any denied person that will be imported into the United States, directly or indirectly, without a required license from OFAC.
- (c) Seller will not prepare and execute any import or export documentation or make any certification or representation on behalf of TI relating to the importation, exportation or re-exportation of any item received by Seller from TI, the direct product of any technology or software received by Seller from TI, or any TI deliverable except as specifically authorized by TI employees designated in writing by TI for such purposes. Each party shall secure, at its own expense, such licenses and export and import documents as are necessary for each respective party to fulfill its obligations under this Purchase Order. If government approvals cannot be obtained, TI may terminate, cancel or otherwise be excused from performing any obligations it may have under this Purchase Order.
- (d) These clauses shall survive termination or cancellation of this Purchase Order.

27. Record Keeping and Audits

- (a) Seller shall identify, create and safely retain full and detailed accounts and exercise all such controls as may be necessary or helpful for proper financial management, documentation and compliance under this Purchase Order. Seller's records, books, correspondence, instructions, drawings, receipts, subcontracts, purchase orders, vouchers, memoranda and other data related to this Purchase Order ("Records") shall be preserved for a period of three (3) years after final payment or for such longer period as may be required by law.
- (b) TI shall have the right to audit all of Seller's Records (in whatever form they may be kept, whether written, electronic or other) and Seller's operations related to this Purchase Order. Seller agrees to provide TI's internal and external auditors with access to Seller's offices and/or manufacturing locations and relevant records and physical items during normal business hours, for purposes of auditing Seller's compliance with the terms of this Purchase Order. TI shall provide Supplier with twenty-four (24) hours prior written notice of its intention to audit Supplier. TI's right to audit under this section shall also include subcontractors (which subcontractors must be approved by TI as provided below). Seller shall ensure that its agreements with its subcontractors include TI's audit rights.

28. Supply Chain Security

Seller agrees that it will comply with applicable TI supply chain security requirements in providing goods or performing services for TI and that it will provide supply chain security information to TI as requested, including information about Seller's status with regard to the US Customs Trade Partnership Against Terrorism (C-TPAT) initiative, including provision of Seller's C-TPAT account number where applicable where applicable. If requested by TI, Seller will ship goods using only TI-authorized transportation providers.

29. Assignment and Subcontracting

Seller shall not assign or transfer its performance obligations without TI's prior written consent, and any attempted assignment or transfer without such consent shall be void. Seller shall not subcontract any portion of the work to be performed by Seller under this Purchase Order without the prior written consent of a duly authorized TI representative

30. Seller Ownership Change

Seller will notify TI immediately in writing in the event Seller is acquired by or merges with any other company or a majority or controlling interest in Seller is obtained by another company.

31. Ozone Depleting Substances

Except where TI has given written approval to Seller in advance of shipment, Seller hereby agrees that it has not used or introduced a Class I ozone depleting substance (ODS) or introduced a Class II ODS (as such terms are defined in 40 CFR 82.104), into any product being supplied to or imported by TI under this Purchase Order. Where a duly authorized TI representative has so agreed to accept product containing or manufactured using an ODS, Seller will label the product with a warning or will otherwise effectively warn TI of such use in accordance with 40 CFR 82, Subpart E. Should Seller choose to warn TI through a mechanism other than a warning label or other warning accompanying the shipment, a copy of such warning shall be sent to TI, in advance of shipment. Breach of this provision will entitle TI to all remedies available for breach of this Purchase Order, including without limitation, the right to reject the product and/or terminate the agreement.

32. TI Controlled Chemicals and Materials

Seller shall comply with the TI Controlled Chemicals and Materials Specification, Number 6453792, which is updated periodically and is located at <http://wpl.ext.ti.com>.

33. Conflict Minerals

Seller will promptly provide information to TI, in the format reasonably requested by TI, to assist TI in meeting its obligations or responding to third-party requests relating conflict minerals, such as gold, tungsten, tin, and tantalum and their derivatives, ("Conflict Minerals") as such minerals are defined pursuant to Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and its implementing regulations as amended periodically or other rules of a similar nature (collectively, the "Conflict Minerals Rules"). The foregoing includes but is not limited to providing TI with information relating to Seller's process for determining the source of any Conflict Minerals supplied to TI or used in Seller's products supplied to TI.

Seller further agrees to comply, to the extent applicable to Seller, with the Conflict Minerals Rules and with the then-current TI Conflict Minerals Policy located at <http://wpl.ext.ti.com>. Seller will adopt policies and establish systems to procure conflict minerals from sources that have been third-party verified as conflict free.

34. Affordable Care Act

Effective as of January 1, 2016, Seller and any contractor, subcontractor, agent or other entity providing personnel performing services under this Purchase Order, shall comply with the Patient Protection and Affordable Care Act of 2010 and its related statutes and regulations (the "ACA") as it pertains to its personnel assigned to TI under this Purchase Order (sometimes referred to herein as "Seller

personnel"). In furtherance thereof, Seller shall offer its personnel who earn U.S. source income and have thirty (30) or more hours of service per week for Seller an effective opportunity to enroll or decline health benefit coverage at least once per year. Such coverage shall be "minimum essential coverage" under an "eligible employer-sponsored plan" that provides "minimum value" and is "affordable," as those quoted terms are defined in Internal Revenue Code ("Code") Sections 4980H and 5000A and the accompanying Treasury regulations. Seller agrees only personnel who have been offered such coverage shall be assigned to perform services for TI. Seller further agrees that it will comply with all federal reporting requirements related to Seller personnel assigned to perform services for TI, including filing Forms 1095-C for all such Seller personnel with the Internal Revenue Services and including said Seller personnel in its Form 1094-C.

The parties understand and agree that Seller, and not TI, will be the common law employer of the personnel Seller employs to provide services to TI. If, despite the Parties' express intent that TI is not the employer of any Seller personnel and should not be deemed the employer of any Seller personnel for any purpose, TI, and not Seller, is deemed by the Internal Revenue Service to be the common law employer of any Seller personnel, the parties intend to rely on the Treas. Reg. Sec. 54.4980H-4(b)(2) safe harbor to credit TI with the offer of health benefit coverage made by Seller. In such a case, TI shall at that time pay to Seller an additional dollar amount for each calendar month in which an individual is enrolled in Seller's health plan and performing services for TI during the relevant time period, so that the fee paid by TI for any individual enrolled in Seller's health plan is higher than the fee TI would have paid for the same individual if that individual did not enroll in Seller's health plan. Seller shall cooperate with TI and provide to TI any and all information, records, and documentation that TI may reasonably require to satisfy reporting requirements, if any, with respect to the health benefit coverage offered to Seller personnel and shall cooperate with TI's efforts to dispute any Section 1411 Certification, as defined in Treas. Reg. Sec. 54.4980H-1(a)(40), that TI may receive with respect to any Seller personnel.

The foregoing notwithstanding, if the Internal Revenue Service deems TI to be the common law employer of any Seller personnel, if Seller fails to implement the minimum requirements of the ACA, including the minimum value and affordability requirements and other requirements to avoid assessable payments under Code Sections 4980H(a) and (b), or the requirements of this Section, no later than January 1, 2016, Seller's failure to comply shall be considered a material breach of this Purchase Order. In the event of such breach, TI shall have the right to terminate this Purchase Order immediately and seek any and all available remedies from Seller for such breach. Additionally, TI may extend an offer of employment with TI to any Seller personnel or another TI seller may hire the Seller personnel and assign one or more of them to TI. Seller agrees that if TI exercises this right or if another TI seller places former Seller personnel at TI, neither TI nor its alternative seller will be subject to any liability, and Seller hereby waives any claim, related to the solicitation or hiring of Seller personnel.

Without limiting Seller's indemnity obligations under any other provision of this Purchase Order, and to the extent permitted by law, if the Internal Revenue Service deems TI to be the common law employer of any Seller personnel, Seller agrees to indemnify, defend, protect and save TI, its officers, directors, employees, servants, agents, successors and assigns, harmless from and against any and all claims, causes of action, suits, demands, losses, judgments, damages, penalties, taxes, interest, or other amount, fines, liabilities, costs and expenses, (including without limitation reasonable attorneys' fees, consultants' fees, court costs and expenses), arising directly or indirectly out of Seller's failure to comply with the requirements of this Section, including without limitation Seller's failure to offer minimum essential coverage to employees working 30 hours or more per week and assigned to perform services for TI, or its failure to offer coverage that provides minimum value and is affordable. THE PARTIES AGREE THAT SELLER'S INDEMNITY OBLIGATIONS UNDER THIS SECTION WILL NOT BE LIMITED BY ANY LIMITATION OR EXCLUSION OF DAMAGES CONTAINED ELSEWHERE IN THIS PURCHASE ORDER.

35. Reservation of Rights

TI expressly reserves all rights and remedies that are available to it at law or equity, including but not limited to rights and remedies set forth in the Uniform Commercial Code.

36. Waiver

Any failure of TI to enforce any of the provisions of this Purchase Order at any time, or for any period of time, shall not constitute a waiver of such provisions nor of TI's right to enforce each and every provision.

37. Attachments

Any attachments referenced on the front side of this Purchase Order shall be deemed for all purposes to be an integral part of this Purchase Order. In the event of an irreconcilable conflict between such referenced attachments and the terms stated therein, the terms of such attachments shall control.

38. Government Contract Provisions

If this Purchase Order references a U.S. Government contract or subcontract number, the following clauses of the Federal Acquisition Regulation (FAR) in effect in the prime contract referenced on the front of this Purchase Order are incorporated by reference and will prevail in the event of any inconsistency with the foregoing terms and conditions. Cost Accounting Standards (CAS) requirements are those in effect on the date of subcontract award or final agreement on price, whichever is earlier. It is understood that the term "contracting officer" or "Government" shall mean TI and "contractor" shall mean Seller when applicable. Any reference to a "disputes" clause in any FAR clause incorporated in this Purchase Order is deleted. Any FAR clause, which by its terms is required to be included in a subcontract, is hereby incorporated in this Purchase Order when applicable. Seller shall be entitled to the full benefit of whatever

authorization and consent clause is contained in the prime contract referenced on the front of this Purchase Order.
